

fire_zones

Location: boundaries\fire_zones

Description

This layer consists of 29 fire zones, county-wide, based on township lines extending across bays.

Polygons are in **fire_zones.shp** and arcs are in **fire_zones_ln.shp**.

For township labelling, use **plss_pt.shp** or **townships.shp**.

Source

In March 2001, Bay County GIS created this firezone polygon layer based on township lines found in **plss_line.shp**. (See **plss.doc**.) In ArcInfo, lines were added across bays. Zone numbers were determined by Bay County Emergency Services.

This data is provided with the understanding that the conclusions drawn from such information are solely the responsibilities of the user. The GIS data is not a legal representation of the features depicted, and any assumption of the legal status of this data is hereby disclaimed. Errors or omissions should be reported to the Bay County GIS Division 850-784-6171.
